

**Communities Against Development of Cammo and Maybury  
(CADCAM Group)**

Dear Local Councillor (Name, All members of Almond Dr)

We write to you as representatives of local organisations to seek your support against the possible development of the areas within Cammo and Maybury as set out in the City of Edinburgh Council Proposed Local Development Plan. The Group also has support from our elected members of the Scottish and Westminster parliaments.

After local consultations and meetings, we have decided to come together in order to fight what we see as a disastrous set of proposals which will affect our communities.

We are asking you to support our objections which have support from the vast majority of residents within our communities. For the most part, our objections are based around huge traffic levels, air pollution, difficulties along the Queensferry Road and Corstorphine Road corridors as well as education and health provision. These are problems which require remedies now.

Can you please confirm that you will lend your support as elected member to the City of Edinburgh Council? If you feel unable to support our group we would appreciate if you could inform us as to the reasons why this would be the case.

Please reply in the first instance to Rob Munn at the office of Colin Keir MSP who acting as secretary to our group.

We look forward to hearing from you.

Regards

Signed
